Course Description

Outpatient dermatology experience provides exposure to a typical private practice where patients present with a broad array of problems. Learn to diagnose, treat, and/or appropriately refer common dermatologic conditions and to be aware of cutaneous manifestations of serious and significant systemic disease.

Prerequisites

Graduate/professional standing

Learning Activities/Course Hours

This is a two or four credit course; students can choose to enroll in either a two or four week rotation, depending on the location or individual circumstances.

2 credits: The credit standard for this course is met by an expectation of a total of 90 hours of student engagement with the course learning activities over a 2 week period. These include clinical activities, regularly scheduled instructor student meeting times to discuss patient care, reading, and other student work.

4 credits: The credit standard for this course is met by an expectation of a total of 180 hours of student engagement with the course learning activities over a 4 week period. These include clinical activities, regularly scheduled instructor student meeting times to discuss patient care, reading, and other student work.

Direct supervision by attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: evaluating patients in clinic, participating in scheduled procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions, completing problem sets, and preparing for direct patient care as needed. Complete other patient care related learning activities as assigned by instructors (e.g., literature reviews, presentations on specific topics); these are dependent on the individual student, attending physician, and clinical site.

This rotation is not to exceed 80 hours per week, per UWSMPH policy.

Students should expect to work up to 6 days per week with at least one day off per week.

Sample Weekly Schedule

Students work Monday-Friday 8-5 pm (following provider's schedule), no work on the weekends.

Course Learning Outcomes

Objectives:

1. Accurately describe skin lesions including morphology, configuration and distribution.
2. Recognize cutaneous manifestations of systemic diseases.

3. Demonstrate familiarity with common diagnostic and therapeutic procedures used in dermatology, including cryotherapy, shave and punch skin biopsy, potassium hydroxide mounts, scabies oil mounts, Tzanck smear, and dermoscopy.
4. Describe 1st and 2nd lines of therapy for common and important lesions and eruptions.
5. Identify risk factors for melanoma and non-melanoma skin cancers.
6. Perform supervised full-body skin exams for high-risk patients.
7. Demonstrate ability to write appropriate clinical notes and communicate effectively with the health care team.
8. Identify clinical situations in which a dermatologist should be consulted and other clinical situations which may be managed in a primary care clinic without referral.

GRADING (S/U)

Students will receive a grade of Satisfactory (S) after successfully performing at the level of meets expectations or above on questions 5, 6, and 7 of the Phase 3 Unrestricted Elective Clinical Assessment (Appendix A). Instructors and/or supervising physicians will use this form to evaluate whether a student is competent to perform the basic skills of an intern in any specialty. This standard clinical assessment uses a framework consistent with the AAMCs published Entrustable Professional Activities, a national standard evaluating a student's preparation for internship. This standard form addresses the following:

1. professionalism (honesty, organization, dependability, ethics, implementation of feedback)
2. ability to perform differential diagnoses
3. contribution toward or completion of treatment plans
4. patient care skills
5. interpersonal communication with patients and families
6. overall performance in a clinical setting

As part of this assessment, faculty will also provide specific comments regarding students' patient care, interpersonal and communication skills, and professionalism that will appear verbatim in the student's Medical Student Performance Evaluation (MSPE) for residency application.

REQUIRED TEXTBOOK, SOFTWARE & OTHER COURSE MATERIALS

- None

EXAMS, QUIZZES, PAPERS & OTHER MAJOR GRADED WORK

- None

HOMEWORK & OTHER ASSIGNMENTS

- None

RULES, RIGHTS & RESPONSIBILITIES

- See the Guide's [Rules, Rights and Responsibilities](#)

ACADEMIC INTEGRITY

By enrolling in this course, each student assumes the responsibilities of an active participant in UW-Madison's community of scholars in which everyone's academic work and behavior are held to the highest academic integrity standards. Academic misconduct compromises the integrity of the university. Cheating, fabrication, plagiarism, unauthorized collaboration, and helping others commit these acts are examples of academic misconduct, which can result in disciplinary action. This includes but is not limited to failure on the assignment/course, disciplinary probation, or suspension. Substantial or repeated cases of misconduct will be forwarded to the Office of Student Conduct & Community Standards for additional review. For more information, refer to studentconduct.wiscweb.wisc.edu/academic-integrity/.

ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

McBurney Disability Resource Center syllabus statement: "The University of Wisconsin-Madison supports the right of all enrolled students to a full and equal educational opportunity. The Americans with Disabilities Act (ADA), Wisconsin State Statute (36.12), and UW-Madison policy (Faculty Document 1071) require that students with disabilities be reasonably accommodated in instruction and campus life. Reasonable accommodations for students with disabilities is a shared faculty and student responsibility. Students are expected to inform faculty [me] of their need for instructional accommodations by the end of the third week of the semester, or as soon as possible after a disability has been incurred or recognized. Faculty [I], will work either directly with the student [you] or in coordination with the McBurney Center to identify and provide reasonable instructional accommodations. Disability information, including instructional accommodations as part of a student's educational record, is confidential and protected under FERPA." <http://mcburney.wisc.edu/facstaffother/faculty/syllabus.php>

DIVERSITY & INCLUSION

Institutional statement on diversity: "Diversity is a source of strength, creativity, and innovation for UW-Madison. We value the contributions of each person and respect the profound ways their identity, culture, background, experience, status, abilities, and opinion enrich the university community. We commit ourselves to the pursuit of excellence in teaching, research, outreach, and diversity as inextricably linked goals.

The University of Wisconsin-Madison fulfills its public mission by creating a welcoming and inclusive community for people from every background – people who as students, faculty, and staff serve Wisconsin and the world." <https://diversity.wisc.edu/>
